Dear Ms. Peterson:

Enclosed are the documents you requested in your telephone call Wednesday night.

As you can see, the Death Certificate was prepared on Nov. 23, 1963, by Dr. George G. Burkley, the President's personal physician.

A few words are in order about the "Autopsy Descriptive Sheet." It is a pre-printed form that was filled in by the doctors at the autopsy on Nov. 22, 1963. The original of that sheet was signed and "verified" by Dr. Burkley on November 24, 1963. The less clear copy that does not bear Dr. Burkley's verification is the copy that the Warren Commission had to work with. It is marked "CE 397" because it was introduced as the Commission's 397th exhibit. This is also the copy that the Commission published. Thus, for years the public did not know that Dr. Burkley had verified this document. That revelation was first made by Harold Weisberg.

I hope these documents are of help to you, and I look forward to receiving the articles.

Sincerely,

Howard Roffman
